Profile

Software Developer with experience building web applications, automation tools, and internal software solutions. Skilled in designing maintainable systems, improving development workflows, and delivering reliable software. Interested in software engineering, backend systems, automation, and modern technologies.

Experience

Software Developer Jul 2025 – Present
NORD EST ELECTRONIQUE *Casablanca, Morocco*

- Built reliable automation solutions for production environments, enabling continuous 24/7 operation without manual intervention.
- Investigated and resolved software, database, and server issues across production systems.
- Collaborated with international engineering teams to deliver, troubleshoot, and support software solutions.

Full Stack Web Intern Apr. 2025 – May 2025
NewDev Maroc *Fes, Morocco*

- Designed and developed a web application for managing medical appointments, improving scheduling and patient management.

Education

Sup'Management Fes, Morocco
Bachelor of Computer Engineering *2026 – Present*

Specialized Institute of Applied Technology Fes, Morocco
Specialized Technician Diploma, Full Stack Web Development *2023 – 2025*

Projects

Ach Khasni | *Next.js, Supabase*

- Built a platform that simplifies Moroccan administrative procedures by providing guides, forms, and official resources in one place.

Nouba-Services | *React, Laravel, MySQL, Docker*

- Developed a digital patient queue management system that streamlines appointment scheduling and patient flow for medical clinics.
